Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1.-54. (Canceled)

- 55. (Currently Amended) A method for generating a <u>cell of a blood</u> vessel in a mammal, the method comprising administering culture expanded autologous or allogeneic bone marrow stromal cells to said mammal, wherein said cells differentiate into cells of a blood vessel in said mammal, thereby generating a blood vessel.
- 56. (Previously Presented) The method of claim 55, wherein said bone marrow stromal cells are administered to said mammal suffering from a disease, disorder, or condition characterized by a defect in a blood vessel.
- (Previously Presented) The method of claim 55, wherein said mammal is a human.
- (Previously Presented) The method of claim 55, wherein said bone marrow stromal cells are human cells.
- 59. (Previously Presented) The method of claim 55, wherein said bone marrow stromal cells are administered systemically to said mammal.
- 60. (Previously Presented) The method of claim 55, wherein said bone marrow stromal cells are administered intravenously to said mammal.

- (Previously Presented) The method of claim 55, wherein said bone marrow stromal cells are administered intra-arterially to said mammal.
- (Previously Presented) The method of claim 55, wherein said bone marrow stromal cells are administered intraperitoneally to said mammal.

63.-77. Canceled.

- 78. (Previously Presented) A method for generating a cell of a blood vessel in a mammal, the method comprising administering culture expanded autologous or allogeneic bone marrow stromal cells to said mammal, wherein said cells differentiate into cells of a blood vessel in said mammal, thereby generating the cell of a blood vessel.
- 79. (Previously Presented) The method of claim 78, wherein said bone marrow stromal cells are administered to said mammal suffering from a disease, disorder, or condition characterized by a defect in a blood vessel.
- (Previously Presented) The method of claim 78, wherein said mammal is a human.
- (Previously Presented) The method of claim 78, wherein said bone marrow stromal cells are human cells.
- (Previously Presented) The method of claim 78, wherein said bone marrow stromal cells are administered systemically to said mammal.
- 83. (Previously Presented) The method of claim 78, wherein said bone marrow stromal cells are administered intravenously to said mammal.

Application No. 10/787,506 Reply to Final Office Action dated February 4, 2008

- 84. (Previously Presented) The method of claim 78, wherein said bone marrow stromal cells are administered intra-arterially to said mammal.
- 85. (Previously Presented) The method of claim 78, wherein said bone marrow stromal cells are administered intraperitoneally to said mammal.
